MamaMind-Postpartum wellness app(for mothers)

This survey is conducted as part of our **Design Thinking project, MamaMind**, a family-centered postpartum wellness platform designed to support **new mothers, babies, partners, and family members**.

The purpose of this survey is to understand the **real-life challenges faced by new parents**, their emotional and physical well-being, the support they receive from their families, and the features they would find useful in a postpartum wellness app. Your responses will help us identify key problems and design a solution that is practical, supportive, and user-centered.

The survey will take approximately **5–7 minutes** to complete. Your responses will be used **only for academic and project research purposes**.

Name *

Likhitha I S

What is your age group? *

- ○ Below 20
- ○ 20–25
- ◉ 26–30
- ○ 31–35
- ○ Above 35

How old is the baby? *

- (●) 0–3 months
- ( ) 4–6 months
- ( ) 7–12 months
- ( ) 1–2 years
- ( ) Above 2 years

Is this your first child? *

- (●) Yes
- ( ) No

Mother & Daily Life

To understand the mother's daily routine, challenges, stress levels, and personal well-being after childbirth.

How difficult is it to manage your daily routine after having a baby? *

- ( ) Very easy

- ○ Professional counseling
- ◉ I usually don't do anything

Features Expected in the App

To identify the features and types of support parents would find most useful in managing baby care and maternal wellness.

Which features would be most useful in an app for new parents? *

- ☐ Mother's mood/stress tracking
- ☑ Baby feeding and sleep tracking
- ☑ Vaccination and doctor reminders
- ☐ Self-care reminders
- ☐ Shared family/partner tasks
- ☐ Counseling support
- ☑ AI parenting assistant

Which baby-related information would you most want to track? *

- [x] Feeding
- [x] Sleep
- [ ] Diaper changes
- [ ] Vaccinations
- [x] Growth milestones

How would you prefer to complete a daily mental wellness check-in? *

- ( ) Mood/emotion icons
- (•) Simple multiple-choice questions
- ( ) Stress scale
- ( ) Voice response
- ( ) Short questionnaire

How much time would you realistically spend on a daily wellness check-in? *

- ( ) Less than 1 minute
- ( ) 1–2 minutes
- (•) 3–5 minutes
- ( ) 5–10 minutes
- ( ) More than 10 minutes

Would personalized suggestions based on your stress level be useful? *

- ○ Very useful
- ◉ Useful
- ○ Maybe
- ○ Not very useful
- ○ Not useful at all

what features would you like to see in the app?

Growth milestones and baby health guide

Family & Partner Support

To understand how partners and family members currently support the mother and what additional support they need to provide.

How involved is your partner/family in baby care? *

- ◉ Very involved
- ○ Quite involved
- ○ Moderately involved
- ○ Slightly involved
- ○ Not involved

What kind of support would you most like from your partner/family? *

- [x] Baby-care responsibilities
- [x] Household chores
- [ ] Grocery/medicine management
- [x] Emotional support
- [ ] Doctor appointments
- [x] Giving me time to rest

Would a shared task system help you divide baby-care and household responsibilities? *

- (●) Definitely
- ( ) Probably
- ( ) Maybe
- ( ) Probably not
- ( ) No

Would you find it helpful if the app suggested ways your partner could support you based on your current needs? *

- ( ) Very helpful
- (●) Helpful
- ( ) Maybe
- ( ) Not very helpful
- ( ) Not helpful
